

Subodhi Suvina Nanayakkara

Software Engineer - Full Stack

nsubodhi@gmail.com | +94 71 072 0046 | [LinkedIn](#) | [GitHub](#)

6+ years building full-stack systems across telecom, healthcare, and aviation domains.
Currently developing AI-powered tooling using local LLMs, RAG pipelines, and FastAPI.

Core Competencies

- Java, TypeScript, JavaScript
- Next.js, React
- Spring Boot, Node.js, Express.js, REST APIs, Microservices, Kafka
- AWS, Docker, Jenkins, Linux, CI/CD
- MySQL, Oracle, CouchDB
- Agile/Scrum, RAG Pipelines, LLM Integrations

Work Experience

Senior Software Engineer | Jul 2025 - Jan 2026

Circles | Colombo, Sri Lanka

Tech Stack: React, TypeScript, Next.js, Ant Design, Jest, Figma | **Domain:** Telecom

- Architected scalable frontend modules for real-time telecom features
- Built reusable component libraries to standardise UI across product teams
- Boosted application performance by 15% and resolved critical production bugs

Software Engineer | Aug 2022 - Dec 2024

Virtusa (Pvt) Ltd | Colombo, Sri Lanka

Tech Stack: Spring Boot, Microservices, Kafka, Hibernate, React, MySQL, Git, ServiceNow, AWS, Node.js, Express.js, AngularJS, CouchDB | **Domains:** Telecom, Enterprise, Healthcare

- Engineered event-driven microservices for large-scale enterprise platforms
- Automated service workflows to streamline enterprise operational efficiency
- Led Agile delivery as Scrum Master across multiple cross-functional teams

Software Engineer | Apr 2018 - Mar 2022

Information Systems and Associates (Accelaero) | Colombo, Sri Lanka

Tech Stack: Spring Boot, Hibernate, React, Redux, AngularJS, Oracle Database, Kafka, Docker, Jenkins, REST APIs, SoapUI, Ubuntu | **Domain:** Aviation

- Built low-latency aviation systems supporting mission-critical operations
- Designed robust REST APIs and optimised database schemas for performance
- Mentored junior engineers and conducted code reviews to improve quality

Projects

AI-Powered Job Assistant Platform | [rag-job-intelligence-system](#)

Tech Stack: FastAPI, Python, Ollama, Phi, RAG Pipelines

- Built local intelligent search and retrieval workflows for data discovery
- Implemented query parsing, intent detection, and modular AI routing pipelines
- Developed dedicated, high-performance API endpoints for intelligent job analytics
- Integrated local models with strict response validation and data sanitization

Certifications

Certified Scrum Master (CSM) | 2024

Issued by Scrum Alliance

Education

B.Sc Special (Hons) in Information Technology | 2014 - 2018

Sri Lanka Institute of Information Technology (SLIIT)
